Arctic

Inspired by the rugged beauty of arctic Scandinavia, this range is made up of seven enigmatic colours that capture the diversity of natural stone. Featuring cloudy shades, evocative speckles and whimsical veins.

SOLUS

Solus Plus ranges are responsibly sourced in line with the BES 6001 standard.

For LEED, BREEAM and WELL information, please ask for details. On request tiles can be tested to BS EN 16165:2021. HSE surface roughness and NCS Colour values are also available upon request. All sizes shown are nominal. Due to the printing process and differing screen values actual tile colours may vary. E&OE. © Solus Ceramics Limited 2025. 014.

The logo consists of the word "SOLUS" in a large, white, sans-serif font, stacked vertically. To the right of the word, there is a green circular icon containing a white plus sign (+).

About Solus Plus

Solus Plus is our new mark of assurance for responsibly sourced products. Built on the rigorous standards of BES 6001, it highlights collections produced by factories that demonstrate industry-leading sustainability across their entire supply chain, from raw material extraction to final delivery.

When specified through Solus, these products can contribute valuable credits toward BREEAM, LEED and WELL certification, helping you meet your environmental targets without compromising on quality or design. Look for the Solus Plus symbol to specify with confidence.
