Made with 60% pre-consumer and 3% post-consumer recycled content.

Solus proudly introduces the groundbreaking LoopCrete collection, boasting an impressive 60% pre-consumer, and 3% post-consumer recycled content. In a market where “40% recycled” often masks internal factory waste, our partner takes a truly innovative approach.

While many manufacturers recycle their own production scraps, our partner has achieved near-zero waste in their own process. To reach 60% pre-consumer and 3% post-consumer recycled content, they actively source waste from other local tile factories, transforming regional waste into beautiful, high-performance tiles. This demonstrates a genuine commitment to sustainability, not just internal efficiency.

Experience the beauty of responsible design.

LoopCrete doesn't compromise on aesthetics. Featuring a realistic concrete effect, the collection offers a sophisticated palette of natural colours, along with a wide range of formats and decorative options. Technical performance is excellent with PTV 36+ for the Natural R10 (A+B) finish. Experience the beauty of responsible design.

Solus Plus ranges are responsibly sourced in line with the BES 6001 standard.

The logo consists of the word "SOLUS" in a large, white, sans-serif font, stacked vertically. To the right of the word "SOLUS" is a green circular icon containing a white plus sign (+).

SOLUS

About Solus Plus

Solus Plus is our new mark of assurance for responsibly sourced products. Built on the rigorous standards of BES 6001, it highlights collections produced by factories that demonstrate industry-leading sustainability across their entire supply chain, from raw material extraction to final delivery.

When specified through Solus, these products can contribute valuable credits toward BREEAM, LEED and WELL certification, helping you meet your environmental targets without compromising on quality or design. Look for the Solus Plus symbol to specify with confidence.
